From: Director of Naval Intelligence
To: Director of Central Intelligence (ATTN: CIA TALENT Control Officer)
Subj: DOD Standard Indexing System
Ref: (a) CIA TCO memo TGS-3145-58 of 15 May 58
Encl: (1) Deputy Chief, HTA, memo TCS-2942-58 with attached 3 page memo

25X1A

1. During the visit of [redacted] CIA TALENT Control Officer to the TALENT Center in the Office of Naval Intelligence recently, a point discussed was the possibility of shifting the plotting of TALENT aerial photographic coverage to the system prescribed for the entire Department of Defense. The desirability of such action would be based upon the fact that, in the event of hostilities and the removal of all TALENT photography and plots from the TALENT Control System, it would be highly desirable to have in existence already plots which would match the DOD standard to permit their incorporation into the master file of such plots maintained by the U. S. Air Force for the use of the entire Department of Defense.

25X1A

25X1A

2. Your investigation of this matter is appreciated, and the negative reply is understood from the facts presented in the memorandum prepared by [redacted] and forwarded by [redacted] Deputy Chief, HTA. This memorandum is returned herewith as enclosure (1) in accordance with your request in reference (a).

3. It is requested that the contents of the memorandum in enclosure (1) be made available to the Army and Air Force representatives, since it now appears that, if the CIA cannot undertake to provide plots in the desired format, then the military services must reach some agreement upon their own responsibility to achieve such replotting as will be required to comply with DOD Directive 5160.6 of 11 July 1955, on this subject, a copy of which was provided to you.
